SUMMARY

I am a passionate Computer Science student with strong skills in JAVA development and programming, actively engaged in hands-on projects that enhance my learning and expertise. My experience includes building applications using various technologies, achieving certifications, and dedicating significant effort towards improving my coding capabilities. I thrive in collaborative environments, eager to contribute to innovative solutions while continuously evolving my skill set

EDUCATION

Bachelor of Technology (B.Tech)

SGPA : 7.79

IMS Engineering College

Intermediate (Class 12)

Percentage : 84.2%

Saraswati Vidya Mandir Ser. Sec. School Rambagh -Basti

High School (Class 10)

Percentage : 83%

Saraswati Vidya Mandir Ser. Sec. School Rambagh -Basti

SKILLS

- JAVA , OOPS with JAVA, PYTHON , DSA
- HTML , CSS , JavaScript
- REACT.js ,NODE.js
- AWS Cloud
- MONGODB ,SQL

KEY ACHIEVEMENTS

Coding Efficiency Improvement

Enhanced coding efficiency by dedicating 8+ hours weekly to solve 150+ algorithm challenges on LeetCode and HackerRank, significantly improving my proficiency in Python and Java.

EXPERIENCE

Web Development Intern

Pantech Solutions **June/2024 - Sep/2024**

Web development company focused on innovative digital solutions

- Developed a personal website by using MERN technology
- Achieved Full stack web Development Certificate

Data Science Using Python

Q Academy Jan2024-April2024

Offline Training: Completed a 4-months practical training gained proficiency in Python for Data Analytics.

PROJECTS

Project Management System

IMS Engineering College

A web application project aimed at enhancing project management and collaboration among college students

- Designed a user-friendly web application using Node.js and React.js
- Utilized MySQL schemas as Database
- Inserted Chatbox for user's better understanding
- Allowed users to upload their projects with their team
- Implemented search for teammates and projects for collaboration.

AlumniConnect

IMS Engineering College

A web application to connect students with alumni for guidance and mentorship

- Developed a user-friendly web application using MERN technology
- Facilitated student and alumni interaction for career development guidance and personal mentoring.
