SUMMARY

I am a passionate Computer Science student with strong skills in JAVA development and programming, actively engaged in hands-on projects that enhance my learning and expertise. My experience includes building applications using various technologies, achieving certifications, and dedicating significant effort towards improving my coding capabilities. I thrive in collaborative environments, eager to contribute to innovative solutions while continuously evolving my skill set.

PROFESSIONAL EXPERIENCE

Web Development Intern - Pantech Solutions [June/2024 - Sep/2024]
- Developed a personal portfolio website to showcase technical skills, projects, and achievements.

Web Development Intern – Corelynx Technology [July /2025 - Sep/2025]
- Developed an E-Commerce Website (Online Clothing Store)

KEY PROJECTS

Project Management Platform - IMS Engineering College
- A web application project aimed at enhancing project management and collaboration among college students.
- Designed a user-friendly web application using Node.js, React.js and MySql.
